INTRODUCTORY NOTE.

1. Scope of the Returns.—The Annual Statement of the Foreign Sea-borne Trade of British India is published in two volumes:—Volume I contains the abstract and detailed tables of imports and exports of each commodity and Volume II, the abstract and detailed tables of trade and shipping with each country and at each port, together with the tables relating to the trade of the French Possessions in India. Tables relating to the trade of Aden which used to be incorporated in Volume II of this publication are now available as a separate publication entitled “Trade and Navigation Report of Aden.” Tables relating to the trade of the Portuguese Possessions in India are also issued from time to time as supplements to these publications while tables relating to the trade of Kathiawar and Travancore ports are published separately by this department every month.

2. Nature of the Trade recorded.—The trade dealt with in the Sea-borne Trade Accounts is the trade by sea and air with foreign countries registered at British Indian ports during the fiscal year ending the 31st March. The trade registered at British Indian ports can hardly be said to be that of British India only, it is rather the trade of the whole of India and Burma. From 1937-38 the statistics of the foreign Sea-borne Trade of British India include the Trade of British India with Burma and exclude the direct trade of Burma with other foreign countries. The figures recorded in this volume for the year 1937-38 are, not, therefore, comparable with those recorded for the preceding years.

3. Statistical year.—All tables in this volume cover the five official years, April to March, 1933-34 to 1937-38, except table 21 which shows figures for 1937-38 only.

4. Abstract Tables.—The summary tables in this volume show, first (tables 1, 2 and 3), the total value of imports, exports and re-exports as a whole, and secondly (tables 4 to 6), the total value of the imports, exports and re-exports of the principal articles, classified in groups under the following five main heads* :—

- I. Food, Drink and Tobacco,
- II. Raw Materials and Produce and Articles Mainly Unmanufactured,
- III. Articles Wholly or Mainly Manufactured,
- IV. Living Animals, and
- V. $\left\{ \begin{array}{l} \text{Postal Articles not specified (under Imports),} \\ \text{Postal Articles (under Exports).} \end{array} \right.$

(The revised classification above given has been introduced with effect from 1st April, 1922, in the trade accounts of British India.)

Imports from and exports to British Dominions and Possessions† are distinguished from those from and to Foreign Countries, and exports are divided into “Exports of Indian merchandise” and “Re-exports of British and Foreign merchandise.” The term “Indian merchandise” comprises all goods which are the growth, produce, or manufacture of India. Indian merchandise is distinguished from British and Foreign merchandise in the declaration of shippers made in the shipping bills from which trade statistics are compiled.

Tables 7 to 9 show the total value of imports, exports and re-exports from and to each principal country. Tables 10 to 12 of the corresponding volumes for earlier years, showing the total imports, exports and re-exports, have been omitted from this volume with effect from 1932-33 issue as these statistics are readily available from the detailed tables of imports, exports and re-exports.

Appendix B of the earlier volumes has also been omitted.

5. Detailed Tables.—Table 10 shows the quantity and value of imports of articles, both dutiable and free, from the principal and other countries of consignment and the shares of the maritime provinces. The articles are arranged in

*From 1936-37 dutiable articles, imported as baggage not elsewhere specified, are included under class V,

† Including Protectorates and Mandated Territories.

alphabetical order, provision being made for grouping together within the alphabetical order such articles as are related industrially or commercially. Certain articles are recorded in value only, but in most cases both the quantities and values are recorded.

Tables 11 and 12 show in the same order the exports to the principal and other countries of articles of Indian merchandise and of Foreign merchandise respectively.

The trade in each article with each country is recorded separately in these tables when its value is Rs. 5,000 or more. If the value of the trade with any country in any particular article is less than Rs. 5,000, it is generally grouped under one of the heads—"Other British Possessions" or "Other Foreign Countries."

Government Stores.—Imports and exports of Government stores are separately recorded.

Tables 13, 14 and 15 show the quantity and value of imports, exports and re-exports of Government stores. The accounts of goods exported do not include goods bought by Government and shipped on Government or chartered vessels.

Treasure.—Imports and exports of gold and silver coin and bullion are also recorded separately and are not included in the tables relating to merchandise. Imports of gold by letter post are registered with effect from April, 1924, and included in the accounts. The transactions in issued currency notes are, with effect from April, 1922, registered separately under treasure.

Tables 16 to 21 show the imports and exports of gold and silver coin and bullion and of currency notes from and to each country. Bullion, coin and currency notes are excluded from all general tables of imports and exports.

C. Explanation of Imports and Exports.—The tables relating to imports refer to goods landed, whether they are intended for home consumption, bonding, or re-exportation. Goods landed and afterwards re-exported are therefore included under "imports," even though imported on a through bill of lading, unless they are removed under bond from the importing to the exporting ships at the same or another port (when they are omitted from the general tables of imports and re-exports) because the accounts exclude transshipment trade at ports. Goods are seldom imported to be improved, and the "improvement" trade, such as is recognised in the statistics of some other countries, is not distinguished.

Transshipment Trade.—Indian ports are not transshipment centres for foreign countries to any considerable extent, and the trade returns accordingly take no account of merchandise transhipped.

Passengers' baggage.—Imports of passengers' baggage are not included in the trade statistics unless they are dutiable. From April 1936 dutiable articles imported as passengers' baggage have been grouped together under a separate head at the end of the import tables except in the case of (a) firearms, cartridges and other arms and ammunition, (b) wireless sets, (c) instruments, apparatus and appliances, (d) liquors and spirits, (e) furniture and carpets, (f) jewellery, (g) silverware and platedware including silver and plated cutlery and (h) vehicles including motor cars which continued to be included under the appropriate heads and sub-heads specified in the import returns.

Ship's Stores.—Ship's stores are not included in the trade statistics except the imports on which duty is paid and the exports on which drawback is claimed.

Bunkers.—Coal and oil taken for use on board ships engaged in foreign trade are shown separately in the general tables of Exports or Re-exports according as they are of Indian or foreign origin.

Petrol and Lubricating Oil.—Petrol and lubricating oil shipped in aircrafts for consumption during the outward journey have been shown separately in the general tables of Exports or Re-exports according as they are of Indian or foreign origin.

Parcel Post.—Imports from and Exports to foreign countries by parcel post are included in the returns; dutiable articles imported by letter post are also included, but the contents of foreign letters despatched are not registered. Imports by parcel post of goods, whether dutiable or not, are not classified

according to their nature, with the exception of the items noted in the following paragraph, but are separately recorded at the end of the tables and are entered by value only. Exports by parcel post are treated in the same way as imports by parcel post, and the values shown are approximate only.

From April, 1922, imports by post (including letter packets, registered and ordinary) of jewellery, precious stones, gold and silver thread, cigarettes, and cinematograph films, referred to Collectors of Customs for assessment, are being included with their appropriate heads and sub-heads in the import trade returns. From April 1936 watches imported by post are also being similarly included under the appropriate head.

Special Statistics.—At the instance of the Advisory Committee of the League of Nations on traffic in opium, etc., three separate tables 15A, 15B and 15C have been introduced showing the imports, re-exports and exports of opium and other dangerous drugs into and from British India during the years 1933-34 to 1937-38.

7. Countries to which Imports and Exports are credited.—Throughout the tables in this volume *Imports* are classified as received from the countries whence they were *consigned* to British India, and not, as in the corresponding volumes for 1910-11 and earlier years, as received from the countries whence they were shipped direct to India. The *countries of consignment* are the countries from which the goods have come, whether by land and sea or by sea only, without interruption of transit save in the course of transhipment or transfer from one means of conveyance to another.

The countries whence goods are consigned are not in all cases the countries of actual origin or in the case of manufactured goods the countries in which the processes of manufacture were conducted or completed, since goods produced in one country may be purchased by a firm in another country and thence despatched, after a longer or shorter interval, to India. In such a case the second country would be the country of consignment, to which the goods would be credited in these tables.

Exports are credited in the tables to the country of *final destination*, i.e., the country to which they are consigned, whether that country possesses a seaboard or not, and not, as before, to the country containing the port of discharge as declared by the exporter in the shipping bills, whether carried there direct or after transhipment. The *country of final destination* is the country to which goods exported from India are intended to pass, whether by sea and land or by sea only, without interruption of transit save in the course of transhipment or transfer from one means of conveyance to another.

In all tables of Volumes I and II where trade is shown according to countries, the countries included in the British Empire have been grouped separately from Foreign Countries, excepting in tables 4 to 7, 10 and 13 of Volume II, where geographical arrangement within the Continent is followed, and in tables 15A, 15B and 15C of Volume I exhibiting special statistics of the imports and exports of dangerous drugs.

8. Method of ascertaining Quantities and Values of Imports and Exports.—

The statements of both quantities and values are based on the declarations of importers in Bills of Entry and of exporters in Shipping Bills as subsequently checked by the Customs officials. The quantities are not recorded in every case, but where goods are entered by weight, the quantities given represent the *net* weight exclusive of packages, sacks, casks, tins, bottles, etc., in which they may be contained or of reels on which they may be wound. In certain cases, number, gallon, or yard is the denomination employed. Piece-goods are shown by linear yards, oil-cloth and floor-cloth by square yards, and liquors and oils generally by gallons. When weight is the prescribed denomination, different units (tons, cwts., lbs., and ozs.) are specified according to the nature of various articles and the different trade practice. According to the provisions of the Indian Sea Customs Act VIII of 1878 (Section 30), the values of goods imported or exported are based on wholesale market prices, and represent—

- (a) the wholesale cash price, less trade discount, for which goods of the like kind and quality are sold, or are capable of being sold, at the time

and place of importation or exportation, as the case may be, without any abatement or deduction whatever, except (in the case of goods imported) of the amount of the duties payable on the importation thereof; or

- (b) where such price is not ascertainable, the cost at which goods of the like kind and quality could be delivered at such place without any abatement or deduction, except as aforesaid.

In the tables of Imports and Exports of Treasure, the weight of gold has been shown in 'fine ounces' and that of silver in 'standard ounces,' the latter meaning the British Standard ($\frac{37}{40}$ fine); while the value of both gold and silver imported and exported, whether on private or on Government account, represents the market value at the time and place of import or export, except in the case of Government of India rupees and currency notes of which the face value is shown. The practice before April, 1921, was not uniform at all the ports.

9. Unenumerated goods.—Unenumerated goods, *i.e.*, goods not separately specified, are divided into "Unmanufactured" and "Manufactured" [Classes II (Group S) and III (Group U) respectively] and are placed in the tables of imports and exports after all other goods recorded. These goods are entered by value only.

10. List of Countries.—A complete list of all the countries, the trade with which is separately recorded, is shown in Appendix B. This list was revised on the lines prescribed by the Committee set up in terms of Article 8 of the International Convention relating to Economic Statistics with effect from April, 1933.

11. Index.—An index to the articles alphabetically arranged, specified in the tables of Imports, Exports and Re-exports, is given at the end of the volume.

12. Calendar Year Accounts.—The particulars of the import and export trade of British India in principal articles for the calendar year are also published annually.

J. MATTHAI,
Director-General.

TABLES

RELATING TO

THE 'SEA-BORNE' TRADE OF BRITISH INDIA

Note.—The Fiscal Year commences on the 1st April and ends on the 31st March.

SPECIAL TABLES.

Opium and other dangerous drugs.

No. 15-A—IMPORTS

Quantity and value of Imports of opium and other dangerous drugs (classified under certain special heads) by sea into British India in each official year from 1933-34 to 1937-38.

NOTE 1.—The first country represents the country of original consignment and the second, the country of last transshipment.

NOTE 2.—The figures in this table do not always agree with those in the general table, the trade headings not being uniform in all cases with the headings given below.

SPECIAL TABLE (RE-EXPORTS)

(906)

AND OTHER DANGEROUS DRUGS)

No. 15B—RE-EXPORTS

Quantities and value of Re-exports of opium and other dangerous drugs (classified under certain special heads) by sea from British India, in each official year from 1933-34 to 1937-38.

NOT.—The first country stands for the country of final destination and the second for the country to which immediately shipped i.e., the country where the first transshipment, if any, is intended to take place.
 NOT.—The figures in this table do not always agree with those in the general tables, the trade headings not being uniform in all cases with the headings given below.

(OPIMUM AND OTHER DANGEROUS DRUGS)

No. 15-C—EXPORTS

Quantity and value of Exports of opium and other dangerous drugs (classified under certain special heads) by sea from British India in each official year from 1933-34 to 1937-38.

NOTE 1.—The first country stands for the country of final destination and the second for the country to which immediately shipped (i.e., the country, where the first transshipment, if any, is intended to take place).

NOTE 2.—The figures in this table do not always agree with those in the general tables, the trade headings not being uniform in all cases with the headings given below.
